

I'm thankful for good times, for those are the days I live  
and also for bad, 'cause that's when I learn the most about  
Life

I'm thankful for the people who've come into my life,  
And those that just passed by

I'm thankful for all that I know; and all that I don't

I thankful for the things I have, because they make me feel  
rich  
And all the things I don't, for they make me richer

I'm thankful for the food in my belly and the roof over my  
head  
They're not as easy to come by as one would think

I thankful I still have dreams; and thankful that I'm finding  
a way to make those dreams come true.
