:: Purpose

The purpose of this program is to honor web masters who with great care and attention to detail created their Internet presence. Not only created, but also continue to improve. Now that your 'work-of-art' is open to the public, you deserve some recognition! The Artabus Awards honor the web site owner for their long hours spent in front of a computer screen, weaving a masterpiece and checking each page for any possible error.

Many award programs will give you an award merely for visiting or signing a guest book; this award is not that easy. After viewing the list of winners, you will see the higher awards are given to only a select few. If you are a conscientious and studious web developer there is no reason to think, your work is not worthy of obtaining the best awards!

If your site does not win we implore you to not be discouraged, the road to fine web design is a long and studious one.
